

2 June 2006

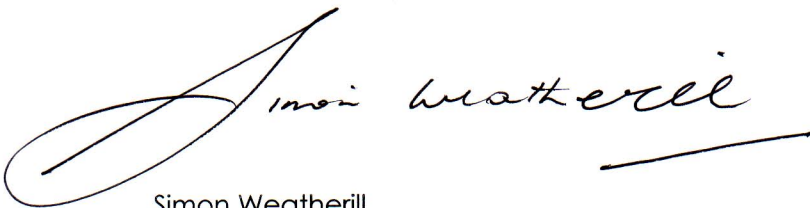

To whom it may concern

The Myrtha Pool was installed at the Melbourne Sports and Aquatic Centre in September/October 2005. Since the pool has been commissioned, it broke 6 World Records in the National Swimming Championships in January 2006, and 11 World Records were broken at the 2006 Commonwealth Games in March 2006.

The pool was built by Myrtha trained personnel and the attention to detail and workmanship was first class.

I have no hesitation in recommending the Myrtha Pool to any facility manager or swimming pool operator who is looking for a first class state-of-the-art swimming facility.

Yours sincerely

Simon Weatherill
Chief Executive Officer, SSCT
