**Subject:** Myrtha Pools

To Whom It May Concern

The Royal Life Saving Society – Western Australia branch, is currently operating five aquatic complexes in remote areas, on behalf of the Western Australian Government.

The Royal Life saving Society has been operating the first such completed centre since the year 2000.

All of these aquatic facilities have Myrtha Pools installed. As the operators of these Myrtha Pools, the Royal Life Saving Society has found the pools to be of exceptional quality and durability. The proof of this is that they have required very little maintenance over the years, even though the pools are operated in harsh conditions in remote Australia.

The Royal Life Saving Society, being situated at Challenge Stadium in Perth, is also familiar with the three Myrtha Pools installed at this site and these pools are both, of high quality and aesthetically pleasing.

I, on behalf of the Royal Life Saving Society would be happy to recommend Myrtha Pools to any prospective client.

Regards

Greg Tate
